

QUALITY OBJECTIVE

- ✦ To deliver to the customer the products as per the specified quality and quantity.
- ✦ Reduce production costs by minimising defective elements, remedial work, and wasted materials.
- ✦ To research and develop new and better solutions in terms of products and applications methods maintaining international standards.
- ✦ To train the workforce regularly to give quality service backup for our products.
- ✦ To ensure delivery of products and services before or within the delivery time.
- ✦ To regularly increase the market share by increasing the number of satisfied customers.
- ✦ To develop a culture of pride and confidence in our workmanship.
- ✦ To maintain International standards of Health and Safety in order to ensure protection against risks and hazards at workplace.
- ✦ Provision of Health and Safety trainings at workplace to ensure awareness of staff against any potential hazards and to nurture a safe environment of work within the company.

To Standards of performance are not restrictive to the saleable product, but extend to all our activities throughout the business.
